“ John, Kathy and family,

On behalf of our family, I extend our deep sorrow at Justin's passing. He was a find young man who loved life and others so much. I believe Brenda must have taught Justin in his early years at church.

I remember well the day you two were married, and have watched your love for one another grow and become a wonderful example of how love changes and enriches our lives. Much of what Justin became is due to how he observed that love in your lives.

We know something of the pain you're experiencing and encourage you to cling to one another and to your faith in God. Only He knows where the puzzle pieces of our lives fit into His will. And, I know you're in His will. Such tragedies are so confusing. But we know He's never confused, but cares and grieves with us..

Our prayers are with you and please let us know how we can serve, now or later.

God's best to you all.

Jerry Senn,
(for our entire family)

“ Justin was such a pleasure to talk to and he was always so very polite. We moved into his neighborhood when he was around 9 years old and he came right over to introduce himself and welcome us. That same day he pointed out that I was pulling up pretty plants and flowers in addition to the weeds from around a tree where I was working. He was proud to show me the difference and to help me complete the weeding that day. I loved his out going personality from the start! He grew into a nice young man who was always ready to help in any way he could with anything he could. The last help he gave me was just last year when he installed after market head lights in our 98 truck. They didn't fit exactly until he made them fit perfectly! He did this in under an hour all the while he kept me entertained by talking with me about ole times and catching up on our current lives. I left there feeling better than when I came. That 's the affect Justin had on us. He went the extra mile for us just like he did for everyone and he made us all feel better about our cars and ourselves. I loved him for that and he will be sorely missed by who were touched by him.

“ I think the best way to sum up Justin would be "Blood, Sweat and Gears." He always had grease under his fingernails, and in his hair, and just about everywhere else. He loved figuring out how to make things, and how to make things go faster. He loved to laugh and was always fun to be around.
His passing is a reminder to us all how fragile life can be, and how quickly any of us can be here one minute and gone the next.
