

David Michael Scranton

July 18, 1958 - February 24, 2017

David Michael Scranton passed away unexpectedly on February 24, 2017, in Asheville, NC, embraced by his devoted and loving wife, Christine, and their children, Catherine and John. David was born on July 18, 1958, in Auburn, NY, son of Paul and Barbara (Gil) Scranton. He attended Northwood Institute at the Michigan campus and then at the Texas campus. After graduating from Northwood, he attended Alfred University in Alfred, NY, leaving there to create his computer networking business. He decided to join the corporate world for several years before returning to his networking business. In addition to his wife and children, David is survived by his parents and his siblings: Debra Lynn Godwin of Rochester, NY, Deidra Marie Cook of Harrisburg, NC, and Daniel Joseph (Rachel) Scranton of Sneads Ferry, NC. There are many aunts, uncles, cousins, nieces, nephews and friends who share the sadness of his passing and the celebration of his life. He was so loved and will be greatly missed.

During part of his youth, David lived on a farm in Belmont, NY where there were vegetables, fruits and an apiary producing honey for family use and for sale. In his mid 20's, he located in Silicon Valley. Included in his ensuing 25 year body of work culminating as a Managing Director at Memorex Telex NV, Mr. Scranton designed IP networks for Chevron, engineered Network Centers across Europe for Olivetti, and operated a 27 country Global Services Network for Memorex. In 1995 Mr. Scranton incorporated Unified Network Services (UNS) located in Research Triangle Park NC. Within three years UNS global clients included Bell Atlantic, Texas Utilities, Saudi Aramco and Jones Communications, Canada. In 1998 IBM awarded UNS recognition as it's Top Network Control Agent in the United States. In 1999, IBM awarded UNS as it's Top Agent prize in North America. UNS was purchased and merged into Cat Technologies shortly thereafter.

In 2000, soon after settling with his family in the mountains of North Carolina, David began his work in synthetic ecosystems (ECOS) seeking to improve on applied technology in food production systems. Rather than applying technology to agriculture, his goals were to sublimate agriculture through applied technology. In 2008 ECOS was incorporated to develop Agrifecture. The practice of Agrifecture emerged, producing pure, safe, high

quality crops, sans Mother Nature.

This final project will move forward in his absence, and we look forward to the amazing results.

“ *Was stunned to learn that you passed away. Although it's been years my old friend since we last talked I will always remember fondly the good times we had at Northwood, both Michigan and Texas, rest in peace my old friend. Gary Johnson*

Gary Johnson - March 24, 2017 at 04:02 PM

CS

“ *I was very sorry to hear of David's passing and would like to extend my deepest sympathy. David was an outstanding individual and talented in so many ways. I was fortunate to work with Dave as he was a student in band in Belmont, NY. He was a gifted musician, and even as a ninth grader, sat as first chair trombone in the high school band. I remember David as a very bright and personable student with a keen sense of humor. He was a reliable and devoted member of the band and had an uncommon understanding of the value of teamwork. The traits he demonstrated as a high school student obviously carried him through an outstanding career.*

“ My heartfelt sympathy going to all of Dave's family. I went to school with Dave from the 3rd grade to graduation. I have so many memories of Dave. His grand sense of humor, all the classes we had together and riding the school bus with him and his sisters for years as we were basically neighbors.
I wish him peace.
