“ *Had a hard time writing this because it confirms that you are no longer with us. The last time that I saw you, you were in Millerton. I can close my eyes and see you and Bob happily running around your charming home. I know you were suffering with this terrible disease, but to me it was harder to accept the truth because to me you are the Marion I last saw in Millerton. Your diagnosis couldn't penetrate my brain. These words couldn't be associated with Lisa's Mom. My heart sank on August 7th....*

*I will always cherish all the memories I had with you. You treated me like family. I was so touched by this. We went through good times and bad. I always admired your relationship with Lisa. You were so open with each other. Marion, I will always be there for Lisa. You created an unbelievably amazing, kind, strong human being that I am lucky to be blessed with as a friend.*

*Marion, thank you for you. You will always be in our hearts.*

“ *Marion and I shared a rare and wonderful friendship. She added so much to my life.*

*I will treasure our memories forever. Rest in Peace my very dear friend.*

*With love, Brenda*
